Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

10 minutes

Team gathering

Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

Set the goal

Think about the problem you'll be focusing on solving in the brainstorming session.

Learn how to use the facilitation tools

Use the Facilitation Superpowers to run a happy and productive session.

Open article

1

Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

5 minutes

PROBLEM

How might we provide child safety monitoring and notification system using IOT?

Key rules of brainstorming

To run a smooth and productive session

Stay in topic.

Defer judgment.

Go for volume.

Encourage wild ideas.

Listen to others.

If possible, be visual.

2

Brainstorm

Write down any ideas that come to mind for child safety monitoring system

10 minutes

Tip

You can select a sticky note and hit the pencil (switch to sketch) icon to start drawing!

Deepa Harshini

Create a mobile application

Sends the exact location of child in case of emergency

Measures temperature, pulse rate, heart beat rate of child and notify during emergency

Good GPS Service with maintaining alerts immediately

Water & sweat Proof

Alerts if the given range is exceeded

Deepak

Create Mobile application

GPS integrated watch to keep track of their child's movements

Use the Child locator gadget

Geofencing the child's movement

Accurate sensors to detect Temperature, Heart rate.

Low levels of radiation

Parental control features

Use of LIFI technology for secured and allow connectivity at all times

Intimating the child's location through GPS

User friendly application

Better battery life

Database should be secured and reduce redundant data

3

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

20 minutes

Tracking Location

Good GPS Service with maintaining alerts immediately

Sends the exact location of child in case of emergency

Alerts if the given range is exceeded

Use satellite calling in case of emergency

UI

Create a mobile application

Brilliant UI/UX design for Application

User friendly application

Physical Features

Low levels of radiation

Better battery life

Comfortable & easily wearable

Water & sweat Proof

Database

Database should be secured and reduce redundant data

Integration with Cloud Services

Geofencing the child's movement

Measures temperature, pulse rate, heart beat rate of child and notify during emergency

4

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

20 minutes

Importance

If each of these tasks could get done without any difficulty or cost, which would have the most positive impact?

Feasibility

Regardless of their importance, which tasks are more feasible than others? (Cost, time, effort, complexity, etc.)

Parental control features

Database should be secured and reduce redundant data

Integration with Parent's mobile

Use of LIFI technology for secured and allow connectivity at all times

Accurate sensors to detect Temperature, Heart rate.

Excellent UI/UX design for Application

Comfortable & easily wearable

Low levels of radiation

GPS integrated watch to keep track of their child's movements

Create a mobile application

Alerts if the given range is exceeded

Creating Geo Fence

Better battery life

Continuous tracking and updating child's location

Water & sweat Proof

Measures temperature, pulse rate, heart beat rate of child and notify during emergency

Tip

Participants can use their cursors to point at where sticky notes should go on the grid. The facilitator can confirm the spot by using the laser pointer holding the H key on the keyboard.

After you collaborate

You can export the mural as an image or pdf to share with members of your company who might find it helpful.

Quick add-ons

Share the mural

Share a view link to the mural with stakeholders to keep them in the loop about the outcomes of the session.

Export the mural

Export a copy of the mural as a PNG or PDF to attach to emails, include in slides, or save in your drive.

Keep moving forward

Strategy blueprint

Define the components of a new idea or strategy.

Open the template

Customer experience Journey map

Understand customer needs, motivations, and obstacles for an experience.

Open the template

Strengths, weaknesses, opportunities & threats

Identify strengths, weaknesses, opportunities, and threats (SWOT) to develop a plan.
